FLORENCIA D'ANDREA

I have made visualizations viewed by hundreds of thousands of people⁷, sped up query times for 25 terabytes of data by an average of 4,800 times², and built packages for R³ that let you do magic⁴.

Currently searching for a position that allows me to build tools leveraging a combination of visualization, machine learning, and software engineering to help people explore and understand their data in new and useful ways.

Instituto Nacional de Tecnologia Agropecuaria (INTA) - CONICET

Emerging Leaders in the Americas Program Fellow Institut National de la Recherche Scientifique (INRS)

· Modelado hidrológico y evaluación de riesgo

Pauenos Aires, Argentina

• Universidad de Québec, Canadá
